

The Rules for Being Human

You will receive a body. You may like it or hate it, but it will be yours for as long as you live. How you take care of it or fail to take care of it can make an enormous difference in the quality of your life.

You will learn lessons. You are enrolled in a full-time, informal school called Life. Each day, you will be presented with opportunities to learn what you need to know. The lessons presented are often completely different from those you think you need.

There are no mistakes, only lessons. Growth is a process of trial, error and experimentation. You can learn as much from failure as you can from success.

A lesson is repeated until it is learned. A lesson will be presented to you in various forms until you have learned it. When you have learned it (as evidenced by a change in your attitude and ultimately your behavior) then you can go on to the next lesson.

Learning lessons does not end. There is no stage of life that does not contain some lessons. As long as you live there will be something more to learn.

“There” is no better than “here”. When your “there” has become a “here” you will simply discover another “there” that will again look better than your “here.”

Others are merely mirrors of you. You cannot love or hate something about another person unless it reflects something you love or hate about yourself.

What you make of your life is up to you. You have all the tools and resources you need. What you create with those tools and resources is up to you.

The answers lie inside of you. The solutions to all of life’s problems lie within your grasp. All you need to do is ask, look, listen and trust yourself.

You will forget all this. You can remember it whenever you want.

.....

UNIVERSAL LAWS

The Universe can be viewed as a Web of Living Energies.

We are in the process of Continually Creating an Evolving Universe. Form follows thought.

Perception is Relative – Once we internalize a belief the Universe will tend to Confirm our Belief.

The Universe operates using Cause & Effect. There are no “accidents.” The Universe is an Interrelated Singularity.
